4. FIRST AID MEASURES

Description of necessary first-aid measures

General Advice	Under normal conditions of use first aid is not required. First aid may be needed if packaging is damaged resulting in contact with solution.
Eye Contact	Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Get medical attention if irritation persists.
Skin Contact	Wash skin with soap and water. Get medical attention if irritation develops and persists.
Inhalation	Move to fresh air in case of accidental inhalation of vapors. Get medical attention immediately if symptoms occur.
Ingestion	Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Drink plenty of water. Get medical attention if symptoms occur.
Protection of First-aiders	Use personal protective equipment. Avoid contact with skin, eyes and clothing.

Most important symptoms/effects, acute and delayed

Most Important Symptoms/Effects No information available.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to Physician Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Water spray.

Unsuitable Extinguishing Media Avoid use of CO₂, dry chemicals, or foam.

Specific Hazards Arising from the Chemical

Ammonium nitrate is a strong oxidizing agent and will support combustion in the absence of oxygen. Take precautions against oxidizers if pellets are released from packaging. Explosive decomposition may occur under fire conditions, heat of decomposition may cause closed containers to build up pressure and explode.

Hazardous Combustion Products Ammonia, Nitrogen oxides (NO_x).

Explosion Data

Sensitivity to Mechanical Impact None.

Sensitivity to Static Discharge None.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Use personal protective equipment. Avoid contact with skin, eyes and clothing. Do not touch damaged packages or spilled material.

Environmental Precautions

Environmental Precautions Prevent entry into waterways, sewers, basements or confined areas.

Methods and materials for containment and cleaning up**Methods for Containment**

For undamaged containers: Keep away from heat.
 For damaged containers: Remove all combustible material. Cool with water spray. Be aware that spilled material may contain unreacted ammonium nitrate. Treat material as oxidizer.

Methods for Cleaning Up

For undamaged containers: Pick up and transfer to properly labeled containers.
 For damaged containers: Spilled material may be cold. Remove all sources of ignition. Use non-combustible absorbent material for spilled liquid. Wear protective equipment. Do not use combustible absorbent materials like sawdust. Use non-sparking tools and equipment. Sweep up or shovel into appropriate containers for disposal.

7. HANDLING AND STORAGE**Precautions for safe handling****Handling**
